

# SETO COMBAT SERIES

## TACTICAL LIGHT FOR TENTS & USE CONTAINERS

### TECHNICAL DATA

	SETO COMBAT X1	SETO COMBAT X2
Input voltage	DC 12.6 V 3 A	DC 12.6 V 3 A
Illuminant	LED Technology	LED Technology
Luminous flux approx.	300 - 3,200 lm	400 - 4,000 lm
Color temperature	6200 K (cw), 4200 K (nw), 3000 K (ww)	3000 K (ww)
Lighting duration	6.5 h ~ max. 78 h	7.5 h ~ max. 78 h
Battery	Li-Ion, 3.6 V, 15,600 mAh	Li-Ion, 3.6 V, 23,400 mAh
Charging time	3 h	4 h
Dimensions (LxWxH) approx.	229 x 100 x 36 mm	296 x 100 x 36 mm
Weight	598 g	822 g
Item no.:	1424000021	1424000022

IP54

IP CODE

DIM POWERBANK

### IMMEDIATELY AVAILABLE, TACTICAL LIGHT FOR TENTS AND CONTAINERS IS THE GREAT STRENGTH OF THE SETO COMBAT SERIES.

Thanks to the latest generation of high-performance LEDs, enormous light potential has been achieved in an extremely compact design. Thanks to state-of-the-art lithium ion battery technology, multi-hour use is possible even where no power source is available.

In addition to the strong light and the long lighting duration, the SETO COMBAT also allows tactical switching between the light colors cool-, warm and neutral white, depending on the application situation.

The direction of light (lateral or central radiation) can be controlled independently as well. In each light color and light direction, the intensity can also be switched in three stages - the result is perfect, homogeneous

illumination in the demand area. The SETO COMBAT first becomes a universal task light due to its flexibility. Two integrated mounting points on the back and front sides allow quick fixation with the enclosed hooks or carabiners, e.g. on poles or ropes. Thanks to side straps, belt mounting is also possible.

### 3 LIGHT COLORS
