

## ALDEBARAN® SMARTLINE MULTI COLOR

The **ALDEBARAN® SMARTLINE MULTI-COLOR (ASM)** is a lighting product specifically for the entertainment and events industry.

This luminaire is equipped with RGB-W (red-green-blue-white) LEDs, which can be used to produce thousands of light colors steplessly. RGB LEDs have long been used for color mixing. The latest generation RGB-W also has a white light LED integrated to brighten and enforce the colors. In addition, thanks to this technology, cold and warm white tones can be generated. Various functions can be called up via the practical remote control - freely selectable single colors, dimming function, on / off switch, the automatic change of different colors over a corresponding period.

Remote control (per luminaire)

8 ASM lights can be easily controlled via one remotecontrol. The range is about 20 meters

### INCL. ALDEBARAN MULTI COLOR REMOTE

**Integrated hand sensor** for determining the desired color temperature

**Range is 20 meters**  
**Remote: 2.4 GHz**

### PRODUCT FEATURES

- Ideal for tents of up to 80m<sup>2</sup>
- Easy control via remote control system
- Integrated color switching
- Space-saving transport thanks to the supplied carrying case (min. 2 ASM luminaires)

## TECHNICAL DATA

<i>Electrical Data</i>	
<b>Input voltage</b>	100-240 V AC, 50/60Hz
<b>Connected load</b>	H07RN-F 3G1,5, 5m
<b>Power consumption</b>	70 W
<i>General data</i>	
<b>Housing</b>	Aluminium
<b>Lens</b>	PMMA (opaque)
<b>Ambient temperature</b>	-20 °C to +40°C
<b>Dimension (LxBxH) ca.</b>	610 x 160 x 105 mm
<b>Weight</b>	3,5 kg
<b>Schuko socket (opposite)</b>	IP54
<b>Item no.: (SET of 2)</b>	<b>1417192000-2</b>
<b>Item no.: (SET of 4)</b>	<b>1417192000-4</b>
<b>Item no.: (SET of 6)</b>	<b>1417192000-6</b>
<b>Item no.: (SET of 8)</b>	<b>1417192000-8</b>

\* Lumen = Lm / The „REAL Lumen“ are REAL measures light leakage quantities.
