

ALDEBARAN® SMARTLINE EXIT LED

- The **ALDEBARAN® SMARTLINE EXIT** LED contains an integrated emergency light module, has an integrated self-test function and a button located on the housing. The button is used to interrupt the emergency power function.
- The light is operated via the normal 230 V mains and is designed for continuous operation. In the event of a power failure or other interruptions to mains operation, the **ALDEBARAN® SMARTLINE EXIT** LED switches safely and automatically for 3 hours with electricity. When the power returns, the light automatically switches back to mains and the battery is recharged.

Technical Data

Electrical Data	
Input voltage	220 - 240 V / 50/60 Hz
Rated current / 230 V approx.	0,02 A
Photometric Data	
Illuminant	LED Array 2W
Color temperature	5000 K
Life time approx.	30,000 hrs
Lighting duration emergency power	3 hrs
General Data	
Recognition range	21 m
Battery	NiCd 2,4 V / 1,8 Ah
Dimensions (LxWxH) approx.	320 x 100 x 170 mm
Weight approx.	2,3 kg
Item no.:	1418398004
