

MICA IL6400 LED NiMH

The addition of an aluminium clamping ring ensures even better cooling. This is most convenient when you enable the Boost feature by pressing the power button. The boost mode provides nearly 1200 lumens.

The **IL6400** uses four high-power LEDs with a lifetime of approximately 50,000 hours; This means that you can say goodbye to changing the illuminants. The logo is a guarantee for the highest quality, reliability and easy operation. When the battery is low, the lamp starts flashing at 15-second intervals.

PRODUCT FEATURES

- Rechargeable
- Robust and impact resistant
- Dust and waterproof
- NiMH battery (environmentally friendly)
- TÜV certified

TECHNICAL DATA

Photometric Data	
Illuminant	4 x Cree LED
Luminous flux (REAL Lumen)*	High power: 770 lm Low power: 150 lm Boost mode: 1.700 lm
Life time approx.	50,000 hrs
General Data	
Housing	Shock-proof polyamide
Lens	Hardened glass (5 mm)
Battery	NiMH, 6V
Charging duration	11 hrs
Lighting duration	Highest performance: 6 hrs Lowest performance: 12 hrs Blink mode: 12 hrs
Ambient temperature	- 20 °C to +40 °C
Dimensions (LxWxH) approx.	215 x 120 x 125 mm
Weight approx.	1,6 kg
IP code	IP67
Item no.: (glass panel)	40_113423

Note: Charging requires the IL2 (Item no.: 40_112700) and the power supply ILC (Item no.: 40_112300).
