

SETO COMBAT SERIES

Immediately Available, tactical Light for tents and Containers is the great Strength of the **SETO COMBAT SERIES**.

Thanks to the latest generation of high-performance LEDs, enormous light potential has been achieved in an extremely compact design. Thanks to state-of-the-art lithium ion battery technology, multi-hour use is possible even where no power source is available.

In addition to the strong light and the long lighting duration, the SETO COMBAT also allows tactical switching between the light colors cool-, warm and neutral white, depending on the application situation.

The direction of light (lateral or central radiation) can be controlled independently as well. In each light color and light direction, the intensity can also be switched in three stages - the result is perfect, homogeneous illumination in the demand area.

The **SETO COMBAT** first becomes a universal task light due to its flexibility. Two integrated mounting points on the back and front sides allow quick fixation with the enclosed hooks or carabiners, e.g. on poles or ropes. Thanks to side straps, belt mounting is also possible.

3 LIGHT COLORS

TECHNICAL DATA

Electrical data	SETO COMBAT X1	SETO COMBAT X2
Input voltage	DC 12, 6V 3 A	DC 12, 6V 3 A
Photometric data		
Illuminant	LED Technology	LED Technology
Luminous flux approx.	300 - 3.200 lm	400 - 4.000 lm
Lighting duration	6,5 hrs - max. 78 hrs	7,5 hrs - max. 78 hrs
Color temperature	6200 K (cw), 4200 K (nw), 3000 K (ww)	6200 K (cw), 4200 K (nw), 3000 K (ww)
General data		
Battery	Li-Ion, 3,6V, 15.600 mAh	Li-Ion, 3,6V, 23.400 mAh
Charging time	3 hrs	4 hrs
Dimensions (LxWxH) approx.	229 x 100 x 36 mm	296 x 100 x 36 mm
Weight	598 g	822 g
Item no.:	1424000021	1424000022
