SETO E-POWER MOBILITY PACK

Self-sufficient power source for mobile devices

With the **SETO E-POWER MOBILITY PACK**, there is now also a mobile power source in the form of a portable battery from SETOLITE. The **SETO E-POWER MOBILITY PACKs** can be used completely independently and have different capacities depending on the model, so they always provide enough power for any application.

The **SETO E-POWER MOBILITY PACK** is recharged to its full capacity in just eight hours using the charger included in the scope of delivery. Compact dimensions and a low weight make the **SETO E-POWER MOBILITY PACK** the ideal and indispensable companion for mobile use.

PRODUCT FEATURES

- Self-sufficient use
- Compact dimensions and low weight
- Various protective functions
- Charged within a few hours using the supplied charger
- Lithium-ion rechargeable battery
- Integrated display for charge level indication in per cent
- AC / DC outputs for various devices

TECHNICAL DATA

Electrical data	EP2000	EP1000
Input voltage	100 to 240 V AC, 50/60 Hz	
Output alternating current	7.3 A	4.1 A
Output AC voltage	230 V	
Output power	1,400 W	800 W
Wave form	Sinusoidal shape	
Output	DC 5 V / 2 A DC 12 V / 3 A	DC 5 V / 2 A
Protection functions	Overcharge, overload, discharge, overtemperature, short circuit, undervoltage, etc.	
Rechargeable battery	Li-Ion, 48 V / 40 Ah	Li-Ion, 24 V / 40 Ah
Charging voltage	54.6 V	2.4 V
Charging time	8 h	
Charging cycles	> 3.000	
General data		
Dimensions approx. (l x w x h)	408 x 311 x 166 mm	413 x 260 x 156 mm
Ambient temperature	-20 to +65 °C	
Item no.	1428001020	1428001010
