

## SETO FLASHLIGHT FC LED (focusable)

- With a weight of only 147g (incl. Batteries), the focusable **FLASHLIGHT FC LED** belongs to the lightweight representatives of its kind. Furthermore, it has all the latest technologies on board that can be expected from a flashlight nowadays: The single-handedly controllable focus system makes it possible for you to switch between homogeneous area light to far-reaching and bundled searching light in lightning speed and steplessly.
- Different light features like e.g. dimmed light for jobs in close range or the flashing feature, which in emergency cases can mark your position for many hours, are easily available via the high-quality and non-slip rubbered push button.
- The battery box, which is protected against polarity reversal and which accepts three AAA batteries everywhere available for little money, provides a long duration time and easy „recharge“ of the luminaire.

### Technical Data

<b>Photometric Data</b>	
<b>Illuminant</b>	CREE High Power LED Chip
<b>Luminous flux max.</b>	320 lm
<b>Operating time approx.*</b>	<b>High power:</b> 3 hrs <b>Low power:</b> 12 hrs
<b>Switching mode</b>	high / low / flashing light / SOS
<b>General Data</b>	
<b>Batteries</b>	3 x AAA Alkaline
<b>Dimension (Ø) approx.</b>	34 mm x 136,5 mm
<b>Weight approx.</b>	147 g (without batteries)
<b>Ip code</b>	IPX6
<b>Item-No.:</b>	<b>78_0G619C</b>

\*Average lighting duration in permanent operation up to a luminous flux of 3 lm

**Scope of delivery:** SETO FLASHLIGHT FC LED, 3 x AAA batteries, belt bag, wrist strap
