

## ALDEBARAN® SERIE 1000 - CRAFTSMAN LIGHT

- Signs of fatigue by insufficient illumination is finally a thing of the past with the use of the **ALDEBARAN®** craftsman light because the blinding- and shadow-free light is optimal for illumination, even under rough conditions. Also, the attributes typical for the ALDEBARAN® series like robustness and a long life time label this craftsman light because it is important to us that our products withstand the permanent use under extreme conditions.
- Just like with the work light of the **ALDEBARAN®** 1000 series the illuminant has a life time of 20,000hours and (verifiably) replaces in the 2x55W version a 500 W halogen light, but without causing blinding effects. Another specialty is the 2,5m extended H07BQF special cable which is now 7,5m long, in contrast to the work light. This so-called PUR cable with kink protection is extremely robust and withstands sharp edges and rough floors.
- With the extended range of action, a carried along cable reel is obsolete, also because another load can be connected directly to the lamp, so that time and space can be saved.
- Please note that we offer you a 3-years-warranty, contrary to the two years usual in this sector.

## ▶ Features

- 3-years-warranty
- 2 x 55 W as bright as 500W halogen
- Glare- and shadow-free area light
- 75 % energy saving compared to a halogen light
- Robust
- 7,5 m PUR SPECIAL CABLE + kink protection cable gland

## Detailed pictures

7,5m PUR cable extremely robust & durable against sharp edges and rough floors.

Increased safety by our particularly flexible kink protection.

Socket for connection of electric devices makes a cable reel unnecessary.

Silicone ring: Tight fit of the tube head due to additional soft mounting with silicone.
