

SETO CLAYMORE HEADY2

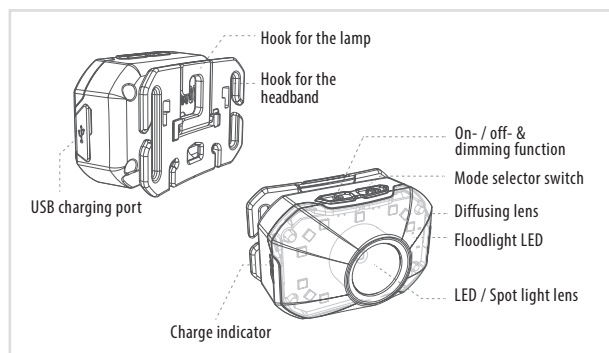

The **SETO CLAYMORE HEADY2** is the ideal companion for maintenance and repair as well as for hiking or camping due to its many possibilities. Thanks to the clever holding device, it can be quickly converted into a headlamp, a ceiling light with hook and by using the additional clip, even into a practical clamp light.

Power provided by the built-in Li-Polymer battery. Charging is accomplished using a regular Micro-USB cable. When not in use the charging socket is protected from dust and moisture by a rubber cap.

With a range of up to 80 m and a running time of up to 40 h (depending on the mode used), the **SETO CLAYMORE HEADY2** lights up your way reliably
